

## ENVIRONMENTAL POLICY STATEMENT

As a product and Service supplier the Company recognises that our operations have an effect on the local, national and global environment. As a consequence of this, the company is committed to achieving continual improvement in environmental performance and the prevention of pollution.

As a growing business, we recognize that the pursuit of economic growth and a healthy environment must be closely linked, and that ecological protection and sustainable development are everyone's responsibility.

The Company is committed to conducting its operations in compliance with all existing environmental legislation and any other environmental requirements placed upon us. We also aim to minimize the risk of all forms of pollution.

The Managing Director is responsible to the Board for the company's overall performance and implementation of this policy through the Environmental Management System. The EQHS Team has day-to-day responsibility for the implementation of the policy and reports directly to the Managing Director in this regard.

The company has established mechanisms to identify and quantify the significance of the company's environmental impacts. Similarly, mechanisms have been established to identify and subsequently review environmental objectives and targets within an Environmental Improvement Programme.

Progress on the Environmental Improvement Programme and proposed alterations will be reported to the Board on an annual basis for approval.

This policy will be communicated to staff through company briefings, and staff will receive the training necessary to fulfill their role within the Environmental Management System.

This policy statement will be made available to the public via the Company website and the Board will review the policy and Environmental Management System on an annual basis.

Sid Sadique

Managing Director
